

The Erma Byrd Center Faculty Spotlight is on Concord University's Dr. Kelli Mann, Chiropractor Anatomy & Physiology Instructor

An Interview with Concord University's
Dr. Kelli Mann, Chiropractor, Anatomy & Physiology Instructor
by Lisa Moten, Erma Byrd Center Director

Lisa Moten: How long have you been teaching at the Erma Byrd Center?

Dr. Kelli Mann: *I started teaching at the Erma Byrd Center this Fall 2016 semester!*

Lisa Moten: What do you enjoy most about teaching at the Erma Byrd Center?

Dr. Kelli Mann: *It is a great location that is close to everything! I also like the fact that I have students from all different walks of life (i.e., students coming back to school, students just getting out of the military, and traditional students)!*

Dr. Kelli Mann

Lisa Moten: Share your best teaching tip to keep students engaged in learning.

Dr. Kelli Mann: *I prefer the lecture method of teaching! And, along with that, I utilize "questioning" as a technique to engage the students! I find that using both open and close-ended questioning motivates students to come prepared for class and to actively participate! More importantly, as a practicing Chiropractor, I can connect the dots between theory and practice providing students with an insight that everything is not always textbook as far as the human anatomy and disease processes.*
